

Daniel Poulter

Software Engineer

I am a hard-working and dedicated software engineer with full stack experience in mobile and web development. I am a fast learner and always happy to jump onto new projects and new coding languages. If I do not know something, I will learn it.

SKILLS

React-JS

React-Native

Git

Scala

C

LANGUAGES

English - Native
Proficiency

Afrikaans - Limited
Proficiency

HOBBIES

Keyboard building - In my spare time I enjoy building mechanical keyboards from scratch, and programming them in C.

Computer gaming - I have always enjoyed playing games as it helps me relax.

LEGO - I have grown up with LEGO all my life and still try to build at least one big set every month.

EXPERIENCE

Yoco — Junior Software Engineer

FEBRUARY 2020 - PRESENT

At Yoco I work in the onboarding development team. We deal with all aspects of the starting journey for our merchants. Due to this, I am currently working in a full stack environment.

Yoco — Software Engineer Intern

FEBRUARY 2019 - MAY 2019

During my internship I worked on the website and signup team. We completely revamped the signup process while I was there, swapping it across to Gatsby JS. I also headed up the implementation of the referral program.

Blue Moon Montessori — Robotics Teacher

JANUARY 2017 - DECEMBER 2017

During my gap year I taught a class of 20 learners the basics of LEGO robotics. This included everything from building the robots to programming them using a drag and drop programming language.

EDUCATION

WeThinkCode_ — Software Development Course

MAY 2018 - MAY 2020

I studied software development in a peer-to-peer environment. The course was full stack. I worked my way through many programming languages. The list was: C, PHP, HTML, React-JS, Node-JS, SQL, C++, finishing with a security module in Assembly.

Rondebosch Boys' High School — NSC Matric

JANUARY 2012 - DECEMBER 2016

I completed matric with a bachelor's pass, with the following subjects: Maths, AP Maths, Home Language English, First Additional Language Afrikaans, Physical Sciences, Information Technology, Music.
